INCLINE

Felicita Incline is the newest addition to the family. It's slightly larger than the Arc but perfect for pour overs in tight places. With precision of 0.1 gram and a built-in timer, you can be sure that your coffee will be perfect every time. Felicita Parallel can connect to your smart phone or iPad via Bluetooth. Downloading the App will open up more possibilities and functions. Felicita app will show you the time to coffee ratio when preparing your favorite pour over. Parallel has different modes to make your coffee brewing ritual easier such as auto tare, auto start and stop timer.
